

Egg Box Scribble Bee

You will need

- An egg box or a similar small card box (not shiny card).
- Some colouring things, pencils, crayons or paints.
- Some small sticks or pipe cleaners for the antennae.
- Some sticky tape or glue.
- A bit of string or ribbon to hang your scribble bee up.

Method

1. Scribble bee body - paint and decorate your egg box, be creative! Will you invent your own scribble bee species or copy one of the bees from the Bee ID sheet? Will it be a modern art rainbow bee or traditional stripy bee? You choose! Leave the bee body to dry if you have used paint.
2. Scribble bee antennae - attach sticks or pipe cleaners to create antennae, thread these through, above the eyes on your bee and secure on the inside with sticky tape.
3. Scribble bee wings - use lolly sticks, leaves, decorated paper, tissue paper or a doily to create some wings. Glue these on the top of the body.
4. Thread and secure string through the main body and hang up your scribble bee to see it 'fly'!
