

This information tells you about  
**Morgan's Hill** Nature Reserve

Welcome to **Morgan's Hill!**

**While you are here you can.....**

... explore the   
beautiful countryside!

There are lots of  
footpaths to  
walk on.

... look at the  
wildlife!

There are lots of plants  
and animals to see.

## What can you see at **Morgan's Hill**?

There are lots of beautiful birds.

Can you hear the birds singing?

In spring and summer there are lots of wild flowers to look at.

How many different kinds of flowers can you find?

In summer there are many different kinds of butterflies.

How many different kinds of butterflies can you find?

At Morgan's Hill you might also see **sheep and** cows.

They eat the grass.

This is good for the countryside. It helps to make sure lots of animals and plants are here.

The hills at Morgan's Hill are made of chalk.

This is unusual and important for the birds and animals here.

This is why we are looking after the countryside at Morgan's Hill.

Look in the distance - what can you see? 🙄🙄

You can see the **Cherhill monument!** It's 38 metres tall!

The steep ditch at Morgan's Hill is called a **Wansdyke**.

It was built in the fifth century, to defend the territory of Wessex.

Now you know that .....

1. Morgan's Hill is special because there are so many different kinds of flowers, birds and animals.
2. The land at Morgan's Hill is made of chalk. This is good for the birds and animals.
3. You can see the **Cherhill monument** and a **Wansdyke** at Morgan's Hill.
4. We are looking after **Morgan's Hill** so that the flowers, birds and animals stay here.

We hope you enjoyed your day.  
What did you enjoy the most?

Thank you for visiting  
**Morgan's Hill** Nature Reserve.

Please come back again!
